

CINB

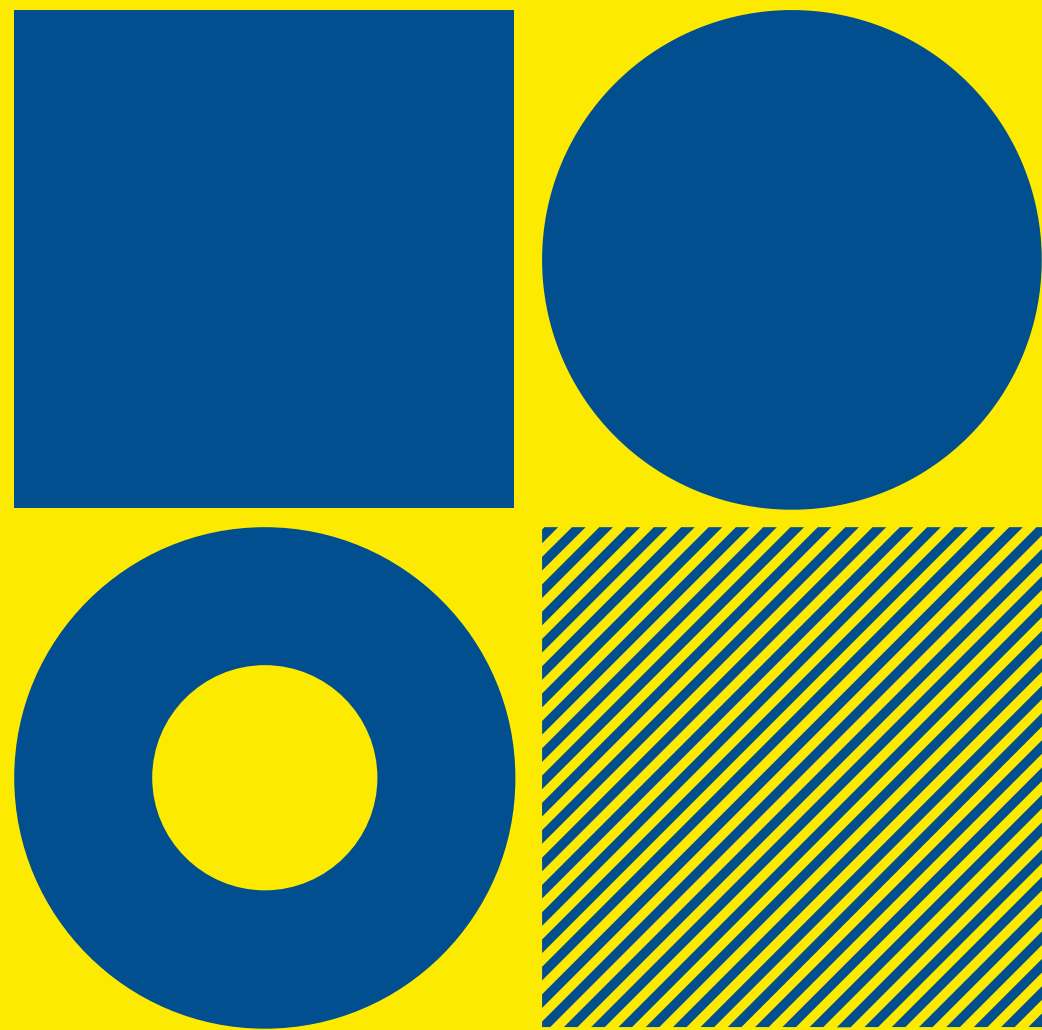

This is Christian Initiative For Nation Building (CINB) a Faith based nonprofit Organization with the following thematic areas:

- Good Governance
- Human Rights Advocacy

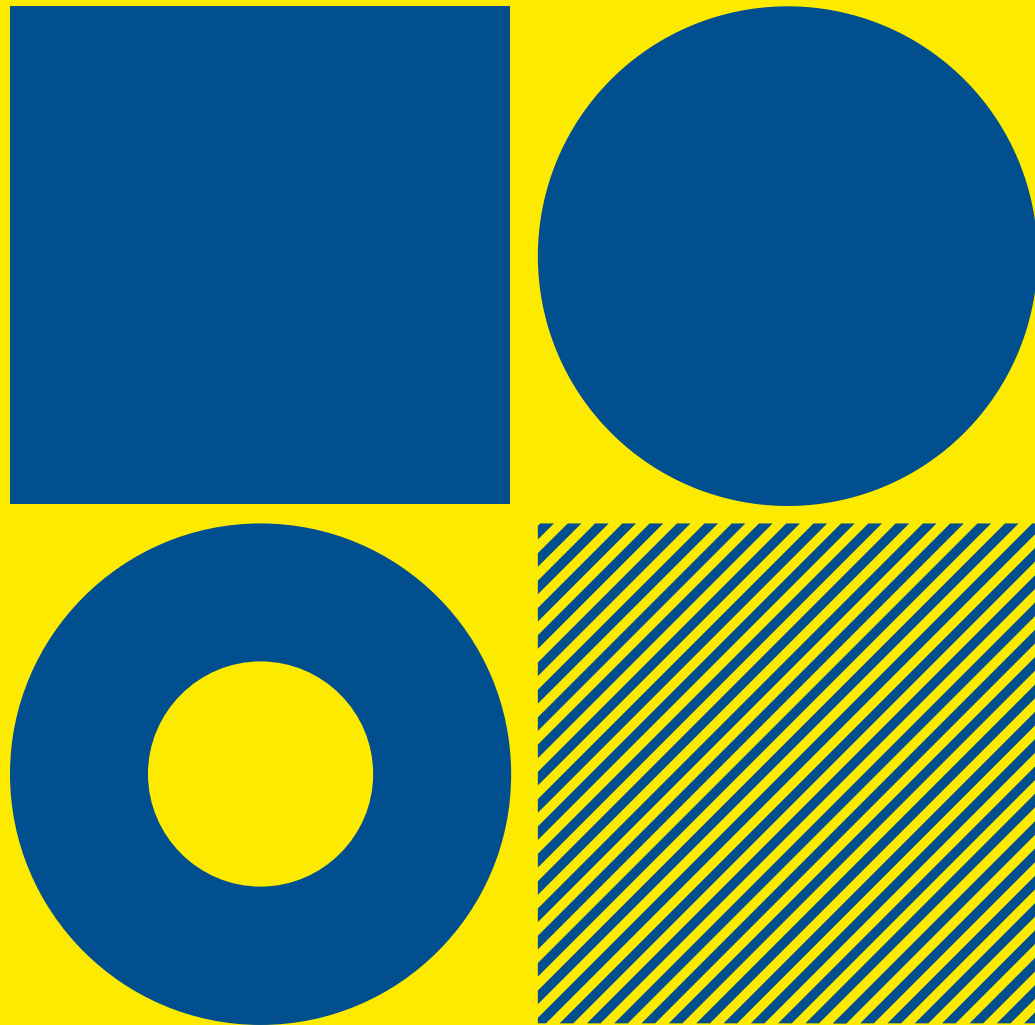

Problem

Over the decades, there has been a recurrent and sustained scenarios that the Nigerian State, like it's counterparts in Africa and countries of the developing world, underperforms due to lack of state capacity to deal with the contemporary complexities of Governance. Accountability and Transparency has been the bane of successive administrations from Local Government Areas to States and Federal Government. There are myriads of limitations that inhibits Citizens Feedback, Impact Measurement System, Tracking Systems and Engagement on Governance Processes. .

Problem Contd

—

They include but not limited to: Low level of awareness on Budget Processes, Insufficient Citizens input during Budget Preparation, Inadequate feedback on Budget performance during a fiscal Year, No central Platform that collates Citizen's felt need, Lack of needs Assessment during Project implementation, Not instituting bottom top approach in Constituency Project Planning and Implementation, Lack of ownership attitude for Projects on the part of Citizens.

The Utopia

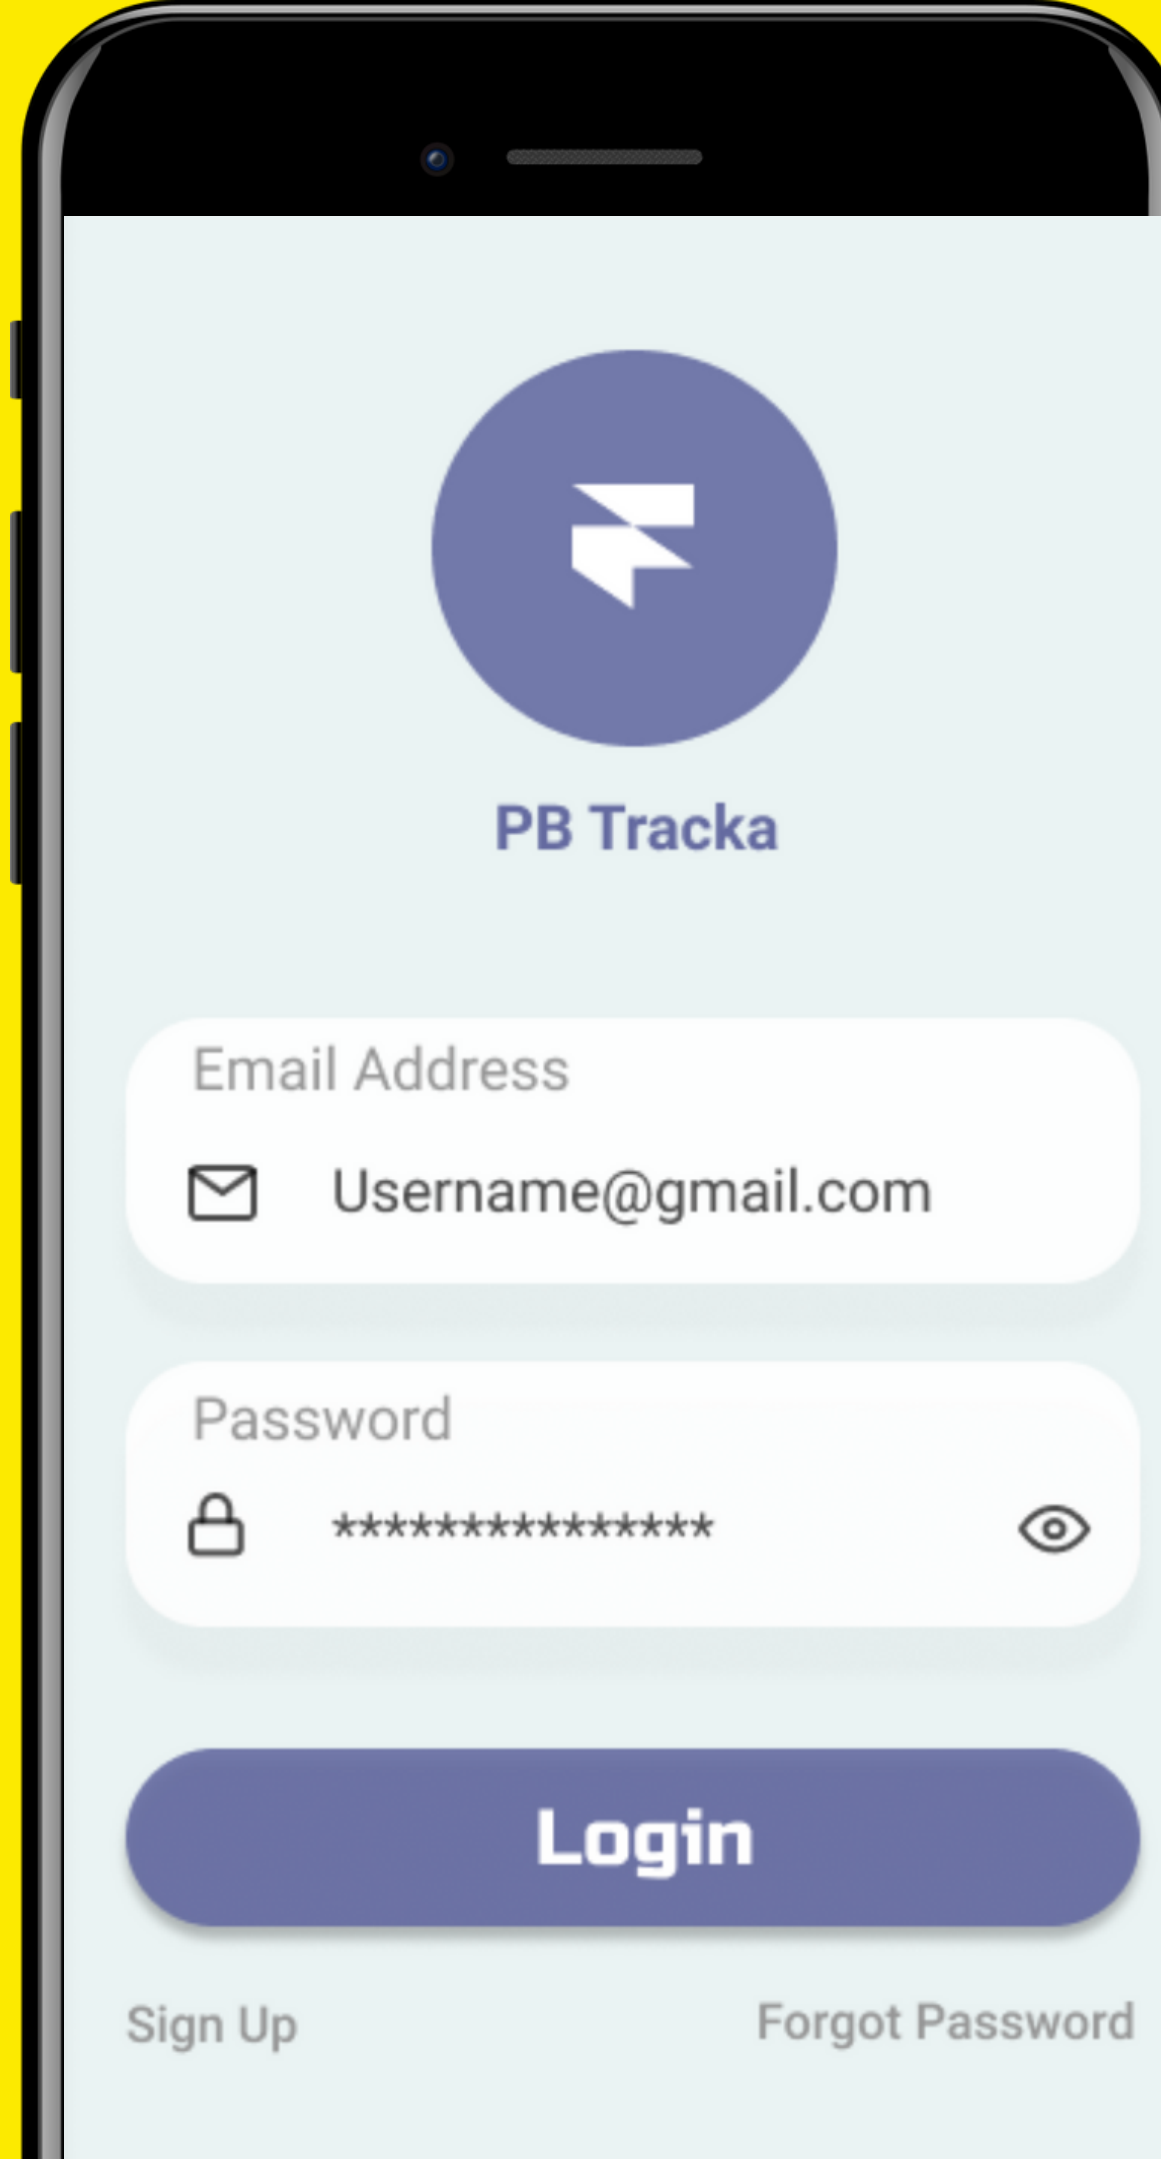

Solutions that we propose to solve the
problem

Solution to the problem

Creating a website that will keep the masses abreast of Budgeting system, Budget implementation, amplify the demands of the citizens across the Local Government Areas and also set up a Tracking System for each Project executed by different arms of Government. It is also going to have a forum feature where citizen feedback can be gathered and used for Advocacy and Inclusion purposes. The Project is tagged: P.B Traka. We will leverage on Freedom of Information Bill to facilitate scalability Improvement focus of #GovernanceHacks.

Product or Service

Introducing PBtracka Application

The login screen for the PB Tracka application. It features a purple circular logo with a white stylized 'P' and 'T' at the top center, with the text 'PB Tracka' below it. The login form consists of two white rounded rectangular fields. The first field is labeled 'Email Address' and contains the text 'Username@gmail.com' with an envelope icon on the left. The second field is labeled 'Password' and contains ten asterisks '*****' with a lock icon on the left and an eye icon on the right. Below these fields is a large purple rounded rectangular button with the text 'Login' in white. At the bottom of the screen, there are two links: 'Sign Up' on the left and 'Forgot Password' on the right.

Project – construct 19.3km Ijegan, Ijagemo roads to combat flood

Road rehabilitation and construction in Lagos State, the people of the flood-prone areas of Ijegan, Ijagemo and Ijedodo will soon put their harrowing experience behind them as the state government prepares to construct a 19.39-kilometer network of roads in Ojo Local Government Area.

The Special Adviser to Governor Sanwo-Olu on Works and Infrastructure, Engr. Aramide Adeyoye, said road construction is a focal point of Governor Babajide Sanwo-Olu's administration as it is central to the delivery on all the pillars of the THEMES agenda.

Ref No: LG/IJG/LSGRE/LMA92/2232
Budget: 94,960,000
Amount spent: NGN95,000,000
Completed Date: 05/05/2021
Contractor: MJK construction LTD (+1 234567900)

Goal: The road construction will combat flood

Why are we building it

1

Step 1

To bridge the Missing link in Budget Processes and Project Implementation

2

Step 2

To Provide the citizen with adequate knowledge of government decisions and implementation

3

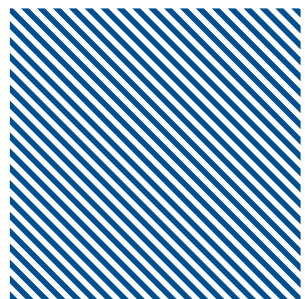

Step 3

To provide a platform to collectively monitor government activities through decentralized reporting and fact checking

Impact of Solution

Our Solution will have Social and economic impact on the citizens in the following ways

- The PB Tracka will go along way to curb siphoning of funds meant for Projects
- To make sure citizen's police project in their community by actively giving updates and monitoring the process
- The fight against funds misappropriation.
- It will also proper Monitoring and Evaluation of Projects
- . - It will help triangulate elected Leader's Stewardship record with reality on ground.
- It will also expose leakages in Project Implementation so as to enable Government have more funds for Socioeconomic Development of the populace.

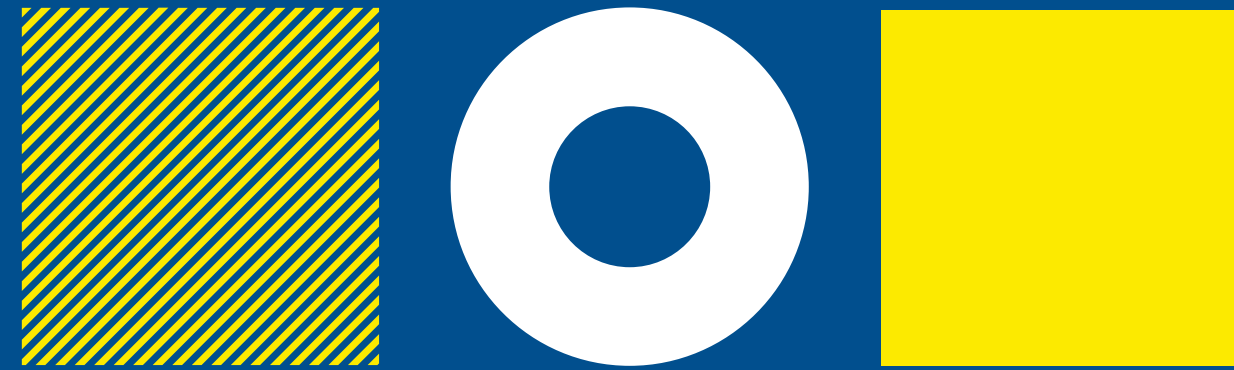

Future Milestone

After the Hackathon our plan is to

- Develop the app to a full fledged working app with all the features working well.
- Make the app accessible to all Nigerians which will give all citizens the opportunity to monitor Governments Budget making and implementation.
- Give the government a platform to access credible citizens feedback for subsequent decision making.

Integrating AI into our Solution

Drone Surveillance

There will be a station across the 36 State and the FCT, drones will be stationed there. Verification will be done by sending a drone to view the project at the stated location. If a project is moved to the abandoned category due to inactivity, the program will trigger a drone to visit the location that has been stored with the project. We will be able to get latest update about the project.

Data verification

If a picture or video is posted as an update or citizen's feedback, the AI in place will verify the Geo location information on the picture or video to make sure the information corresponds with the location of the project to avoid misinformation or fake information. This will go along in preventing assault or undue interference in Tracking Projects. Integrating AI and Data Science will also reduce need for Manpower in Project Tracking

Competitive Advantages

Advantage 1

We will inculcate Community Organizing and Advocacy features to our Solution.

Advantage 3

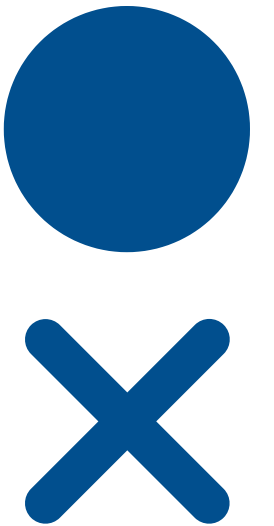

Our Solution will enable Citizens and Civil Society Organizations track phase by phase Implementation of Projects to avert Project abandonment and diversion of funds.

Advantage 2

Our Solution will have awareness and feedback mechanism to keep Citizens abreast of the Budget Cycle.

Advantage 4

. Using Chimoney API for crowdfunding donation for projects in communities and also use it for disbursement to the target community.

Target Market

Who are the customers you want
to cater to?

**Civil Society
Organizations**

Government Tiers

Concerned citizens

Direct Competitors

-BudgiT

**A civic Organization that applies
Technology to intersect citizen
Engagement with Institutional improvement
to facilitate societal impact.**
